

Electronic Gaming Machines - Precommitment Cards

Ms JOHNSTON question to PREMIER

My question is from Robert from Hobart. Rob has been relying on you to implement your mandatory precommitment scheme. He is deeply disappointed by the announcement this morning and says that you have been listening to the THA rather than those with lived experience such as himself. He asks: will you listen to people with lived experience of poker machine addiction and attend a forum where you can hear firsthand their suffering, and do you accept that more Tasmanians under your announcement this morning will continue to suffer from poker machine addiction and some will die?
