- (3) Further acknowledges S & P Global expects Tasmania will maintain its "solid fiscal position" and that: "The stable outlook reflects our expectation that Tasmania's strong operating position will offset its larger capital program spend. We expect the State's debt level to remain low compared with its peers."
- (4) Notes S & P Global projects that our economic growth will remain high at 2.75 per cent over the next two years, in line with forecasts in the 2019-20 Budget.
- (5) Further recognises Tasmania is currently the fastest growing economy in Australia and it doesn't just happen by good luck.

To which the following amendment has been proposed by Dr *Woodruff*, by leaving out all words after "That the House:-" and inserting instead:

- (2) Agrees that the project could cost in excess of current total Public Non-Financial Corporations Sector debt, and feasibility studies and prominent economists such as Saul Eslake have raised serious concerns about the viability of the project, which have not been addressed by the State Government.
- (3) Notes that the Liberals passed legislation to set wholesale electricity prices at a rate higher than projected, leading to energy bills decreasing by less than they would otherwise would have.
