- (4) Further acknowledges the fast-tracking of provisions contained within 'Interim Planning Directive 4' undermines the process of transferral to a state-wide planning scheme and the role of the Tasmanian Planning Commission in accessing Local Provision Schedules prior to a Council's adoption of the Tasmanian Planning Scheme.
- (5) Calls on the Minister for Planning to re-commit to the reform process, as previously iterated, and rule out further Interim Planning Directives issued without consultation and community support. (2 March 2021)
