No. 54

THURSDAY, 20 AUGUST 2020

Notices of Motion

292 Ms *Butler* to move—That the House:—

- (1) Notes that the future of Tasmanian creative industries is at stake and that more must be done to provide immediate support to Tasmanian creative organisations and individuals to sustain employment and develop new works.
- (2) Acknowledges the Tasmanian Arts Sector supports 5000 jobs and contributes \$127m to the Tasmanian economy.
- (3) Recognises that the Government is not doing enough to protect Tasmania's Creative and Cultural Industries and that the recent \$1.5M stimulus package announced by the Government is inadequate.
- (4) Understands that new analysis by Deloitte Access Economics estimates the Australian Arts and recreation industries have lost \$6.5 billion in wages and profits since 1 April, 2020 and that data released in June 2020 by the Australian Bureau of Statistics (ABS) indicates that the Arts and Recreation industry is the hardest hit by Covid-19. Only 47% of Arts and Recreation businesses remain trading.
- (5) Further acknowledges the State Government's investment in building digital and screen capacity however, notes the Government's limited investment in education, equipment and infrastructure in this area. The available grants are inadequate.
- (6) Further notes that other jurisdictions have recognised the vital economic and social importance of Arts and Culture and have released support packages accordingly. NSW have announced \$50M in support, Victoria has invested \$19M in support.
- (7) Calls on the Minister for the Arts, Hon. Elise Archer MP to release the 'Cultural and Creative Arts Strategy 2019 and beyond' detailing the forward strategy, direction, and initiatives to be delivered to support the Tasmanian Creative Cultural sector. (3 June 2020)

293 Ms *O'Connor* to move—That the House:—

- (1) Notes the landmark Federal Court decision in *Friends of Leadbeater's Possum V VicForests*, handed down on 26 May 2020.
- (2) Further notes the judgment confirms that if the State is not delivering protection for threatened and endangered species, it is not exempt from national environment law.
- (3) Agrees Justice Mortimer's decision, that logging operations in Victoria are not exempt from S.38 threatened species provisions in the Environment Protection Biodiversity Conservation (EPBC) Act 1999, places a large question mark over native forest logging in Tasmania.
- (4) Accepts the evidence of independent scientists and the Forest Stewardship Council confirming native forest logging in Tasmania is destroying critical habitat and driving species such as the swift parrot, masked owl and giant wedge-tailed eagle to extinction.
- (5) Further agrees the Regional Forest Agreement, signed between the industry and State and Federal Governments, is a primary vehicle for habitat loss and biodiversity decline.
- (6) Further notes with ongoing concern the Tasmanian Government's failure to fund and deliver threatened species recovery plans is compounding the threat of species' extinction.

NOTICES OF MOTION

- (7) Puts the Tasmanian native forest logging industry and its political enablers on notice that courts, scientists and civil society will continue to expose the industry's crimes against nature. (3 June 2020)

- (5) Further notes with shame the Opposition Leader, Hon. Rebecca White MP's statements in support of the proposed Major Projects legislation, abandoning those principles.
- (6) Further recognises the Greens are steadfast in our commitment to democratic accountability in our planning system and the right of appeal.
- (7) Calls on both the Liberals and Labor to rethink their support for undemocratic and unnecessary Major Projects legislation. (4 June 2020)

298 Ms O'Connor to move—That the House:—

- (1) Notes that deer are a feral species that was introduced to Tasmania in 1836.
- (2) Recognises that Government policy has encouraged deer population growth to provide sport for hunters, at the expense of farmers and the natural environment.
- (3) Understands Tasmania is one of only two Australian jurisdictions that doesn't treat feral deer as a pest species, and in fact protects fallow deer better than it protects many of its endemic native species.
- (4) Acknowledges with regret that despite fallow deer are an increasingly difficult and expensive problem for primary producers, natural values, the integrity of protected areas and – critically – road safety, the Primary Minister for Primary Industries and Water, Hon. Guy Barnett MP has refused to provide a briefing to the Greens, requested on behalf of frustrated stakeholders.
- (5) Supports the call made by the Invasive Species Council for a deer management plan that treats deer as the destructive pest species they are, and works to remove them from the landscape.
- (6) Calls on the Minister for Primary Industries and Water to develop a plan that eradicates feral deer from Tasmania rather than encouraging them to have a permanent, destructive place in this fragile landscape, at the expense of farmers and taxpayers. (4 June 2020)

299 Ms O'Connor to move—That the House:—

- (1) Notes the persistent, grave injustice of police brutality and racial discrimination suffered by people of colour in the United States of America, a nation beset by widespread riots, protests and looting over the murder of George Floyd.

- (5) Calls on the Government to enact all of the recommendations contained in the TLRI's report.
- (6) Specifically, calls on the Attorney General, Hon. Elise Archer, MP to progress recommendations to enact legislation governing surgical or medical intervention in relation to sex characteristics, including:—

This includes bringing forward \$5.9 million of its \$15 million investment in improving access to court services in Burnie, streamlining court proceedings and helping inmates stay connected.
- (2) Further notes that the Tasmanian Labor Party's so-called COVID-19 recovery package does not mention any infrastructure projects for Justice or Corrections, proposes no money be spent on our judicial or corrections systems and delivers no improved services.

311 Ms O'Connor to move—That the House:—

- (1) Recognises the need to appropriately use Launceston Remand Centre and for northern prisoners to be less isolated from friends and family.

- (3) Realises the far preferable alternative is to repurpose the existing Ashley Youth Detention Centre for adult inmates, and build two fit-for-purpose restorative justice centres for youth detainees.

NOTICES OF MOTION

- (4) Further understands the Government's obsession with building a new prison at Westbury is damaging, and its approach to selecting the site has put significant strain on the Westbury community.
