Subject: Taswater takeover

Honorable Members

I am opposed to takeover mainly because state govt has a poor track record eg. FT, Hydro... say no more... well actually could...

Additionally the plan seems to be borrow more to speed things up, (buy now pay later) This is bit slight of hand...

Also there is a problem highlighting 'disadvantaged' communities (ones that never paid their way pre Taswater) why should communities that did pay turn round help them out?
