**Subject:** Submission to the Joint Select Committee on Future Gaming Markets

Dear Members of the Committee,

Having been a resident of West Moonah most of my life I on the occasion pop into the local pubs for a refreshment. To see people sitting on chairs in front of what can only be described as money guzzling machines is very sad.

To call this entertainment is an absolute disgrace the blight on society and the social impact they have on families is without question tragic.

The machines isolate people from their families and lies and deceit become part of the players behaviour to feed their habit.

These machines create an environment of solitude for the player. They have zero economic for the community, many a pub in Hobart continue to thrive without these mousetraps.

Sometimes a line has to be drawn in the sand and for the government to take their cut out of the turnover is immoral when you consider the hurt and destruction they cause.

Yours sincerely, Dallas Joiner
