**Subject:** Submission to the Joint Select Committee on Future Gaming Markets

Dear Members of the Committee,

Poker machines are a blight on our society. They are rigged to fleece people of their money with horrible consequences on the health and relationships of those who directly (or indirectly) interact with them.

I would like to see poker machines eradicated from our community venues like pubs and clubs, and want to know that those that remain in casinos are properly regulated to be safe and fair. It is this sort of act of integrity (even if not popular) which I respect in politicians and which will win my vote into the future. This is the best way of looking after people who are vulnerable to poker machines, and their children who suffer too. Please think/pray about this carefully. I will pray for you too.

Yours sincerely, David James
