Submission to the Select Committee Inquiry into Traffic Congestion Within Greater Hobart

Dear Committee members,

As a daily Hobart bus commuter my recommendations are:

1. Free bus travel for all students.
2. Open Molle St, and Liverpool St to buses heading from the South/ Sandy Bay to the Northern Suburbs. This would save commuters the ridiculous bottle neck, created by the Elizabeth Street Bus Mall/ Macquarie/ Argyle and Liverpool Streets circle. I have estimated on some days this tweak would save 15-20 mins.
3. Increase bus services in the hill suburbs. For example: West Hobart, Mount Stuart, West Moonah, Florence Heights.
4. Increase bus services to all suburbs together with incentives to encourage workers to use buses. For example: 9 trips and the 10th one is free, free bus days, half price before 7.30am and after 5.30pm

Many thanks and I am happy to provide more bus commuter insights to your committee.

Yours faithfully

Elizabeth Seymour
