---

I find it absolutely ridiculous planning to build a sports stadium on prime land.

Apart from looking huge and ugly, the money could better be spent on roads, hospital problems, paying nurses and teachers decent wages to encourage them to stay instead of leaving in droves through stress and low wages.

Far too much importance is placed on sport and not enough on arts and less aggressive entertainment.

And as for ratepayers having to pay towards this, myself as a rate payer find it highly offensive.

Do something decent with our money.
