

Women's Basketball – Funding

Mr WILLIE question to MINISTER for SPORT and EVENTS

Constituents in the basketball community note the government has committed \$100,000 to the Launceston Tornadoes to fund the women's program. Will the Hobart Chargers women's program also be funded to this amount? Is the government aware of the imbalance this will create between the two teams in the same competition, and why is the women's program in the north of the state worth funding but the one in the south is not?
