

Council Rates - Pensioner Concessions

Mr BEHRAKIS question to MINISTER for LOCAL GOVERNMENT

We are all aware that many Tasmanians are feeling the pinch of cost-of-living pressures. This can be particularly felt by older Tasmanians. From recent conversations I have had with constituents in my electorate, there have been a number of remarks concerning council rate increases. I know the Tasmanian government supports pensioner rate concessions. Can you please provide information on how older Tasmanians can access this support?
