

## Urban Boundary for Public Transport to Latrobe High School

### **Dr BROAD question to MINISTER for TRANSPORT**

A group of concerned parents from Port Sorell want to know why their only public high school option at Latrobe is zoned by the government as being part of urban Devonport. Because the students travel from a non-urban to an urban area, parents have to pay bus fares. Why should parents from Port Sorell and surrounds have to pay bus fares to get their children to high school because of an invisible urban boundary on a map that does not make any sense?
