TASMANIAN COUNCIL OF EDUCATION.

REPORT FOR 1872-3.

Laid upon the Table by the Colonial Treasurer, and ordered by the House to be printed, June 17, 1873.

ANNUAL REPORT of the TASMANIAN COUNCIL OF EDUCATION for the Year 1872-73.

To His Excellency CHARLES DU CANE, Esquire, Governor and Commander-in-Chief in and over the Island of Tasmania and its Dependencies.

MAY IT PLEASE YOUR EXCELLENCY.

1. In conformity with the provisions of "The Tasmanian Council of Education and Scholarship Act," we have the honor to submit this our Thirteenth Report embracing the proceedings of the Council between the 1st May, 1872, and the 30th April, 1873. 22 Vict. No. 21.
Section 30.

2. His Honor Mr. Justice Dobson was elected President for the year ending 30th June, 1873. President.

3. We caused an Examination of Candidates for the Council of Education Exhibitions to be held in the month of June, 1872. Eleven Students presented themselves for examination; and, on the recommendation of the Examiners, Exhibitions of the value of £20 each were awarded to Algernon Townsend Creswell, pupil of the Rev. J. R. Buckland, Hutchins School, Hobart Town, and Neil Elliot Lewis, pupil of Mr. H. M. Pike, City School, Hobart Town. Of the remaining nine, four obtained a standard of marks sufficient to entitle them to an Exhibition, and three were entitled to the honorable mention of their names. Council of
Education
Exhibitions,
Gazette
Notice, 2nd
July, 1872.

The Examiners in closing their Report on the Examination observe:—

"We are of opinion that the results of this Examination are very satisfactory. In some former years, before the establishment of a preliminary trial, a larger number of boys offered themselves as competitors. Now that the scale of standards is better understood, very few wish or are advised to compete for the Exhibitions whose attainments fall short of the moderate requirements ascertained by the Preliminary Examination, and the contest is therefore confined to a smaller number of better prepared candidates. On this occasion Hull, the sixth in the race, though he failed in the Mathematical subjects, acquitted himself admirably in several others, and reached the standard which would have qualified him for an exhibition. The candidate who has attained the highest place obtained 596 marks out of a maximum of 1200 three years ago, when he was 10 years old, as a competitor for one of the exhibitions offered by the Board of Education. In the following year an Exhibition was awarded to him, and he was removed from the Goulbourn-street Public School to the Hutchins School. Last year he was fifth among the aspirants for a Council Exhibition, obtaining 655 marks. Still pursuing the same onward course, he has at length achieved another success. His career resembles closely that of Alfred Doran, who attained the highest place last year; and we are of opinion that it is not only very praiseworthy, but that it also reflects honour on the two Schools in which they have both been trained."

4. The Thirteenth Examination of Male Students for the Degree of Associate of Arts was held in September, 1872; Professor Charles Badham, D.D., of the University of Sydney, being Examiner in English, Latin, Greek, and French; M. H. Irving, Esquire, M.A., Head Master of Wesley College, Melbourne, being Examiner in Mathematics and Natural Philosophy; and His Lordship the Bishop of Tasmania undertaking the Examination in Chemistry. Eleven Candidates presented themselves, of whom nine succeeded in obtaining the Degree,—three being placed in the First Class, one in the Second Class, and five in the Third Class. Degree of
