The Secretary, Select Committee on Firearms Legislation and Policy
Parliament House ,Hobart

Further to what I sent to the MLC's(see below) I make additional comments in response to the add in the Advocate on the 29th September:-

There has been recent use of firearms in WA to murder family members!

I have read of firearms theft in other states.

The recent proposals to lengthen the period of time are inappropriate.

MLC's

I am a rate payer in the Municipality of the City of [REDACTED]. I have read with considerable interest recent articles in the paper (Advocate) about Gun reforms.

*Rural Land owners already have firearms to use against fauna that damages their crops. Self loading weapons unlocked in their vehicles – **NO WAY.***

*What has improved in the control of firearms since 1996 –**NOTHING.***

I am against any change to the Gun laws.

I ask that the review the Upper House is to undertake is very thorough.

Douglas Janney
