Subject: Submission re proposed stadium
Date: Friday, 16 December 2022 4:42:43 PM

Dear Committee Secretary,

I write to express my disgust at the proposed new AFL stadium in Hobart. Why when there is a health and housing crisis in the state would you choose to focus on building a sports stadium? There's people dying who can't get hospital beds. There's people sleeping in cars and on the street because they can't afford or find a home yet somehow the government wants to distract voters with the promise of a football stadium? Your priorities are wrong and history will be witness to this.

Although I am no longer a Tasmanian resident i want to voice my concern on this issue as my main reasons for relocating to the mainland were for better mental health services and better housing options and support.

Please think about using the stadium funds to fix housing and health first and make use of the great football stadiums already in the state.

Kind regards,
Claire Hutchison
