Subject: People should not face consequences for telling the truth

Dear Inquiry into Discrimination and Bullying in Tasmanian Schools,

Do not allow activists to use their claim of anti-bullying as a cover for the truth. Their gender beliefs in Tasmanian schools are causing more bullying and discrimination. These ideas go against science and create a setting that downplays factual knowledge. School policies must align with biology and safeguard individuals from ideological influence. People cannot change their gender, they cannot alter their biological sex. Punishing individuals for speaking this truth is wrong.

Sincerely,

[REDACTED]
