

Macquarie Point Stadium - Local Participation

Ms WHITE question to MINISTER for BUSINESS, INDUSTRY and RESOURCES

I have been contacted by constituents who are concerned about your apparent failure to deliver your local content promise on the new Spirits and what this means for the stadium. They want to know whether you will commit to developing a local participation plan for the stadium build, and whether you will publicly disclose the contracts or heads of agreement for the construction so Tasmanians can be assured that local businesses and jobs are being prioritised.

Further, can you advise what local content outcomes are expected to be achieved as a result of the stadium build?
