

Franklin – Public Transport Management

Ms BROWN question to MINISTER for TRANSPORT, Mr ABETZ

My question comes from a number of students in our shared electorate of Franklin. As students attending Hobart College, they constantly struggle to make it to and from school, despite living relatively close to school. Why do you use bus driver shortages as an excuse for lack of efficiency and well-organised public transport when the conditions and pay are so poor for such a challenging job? What policies do you have planned to help combat poor worker conditions and bad bus route management? How do you plan to implement them?
