

## Heritage Grants

### **Mr WOOD question to MINISTER for THE ARTS and HERITAGE**

My question is from a constituent of mine, Julie. Following a recent article about the Post House in Carlton receiving government funding, she has inquired about further support for Tasmania's heritage sector. In particular, she is interested in potential future grant opportunities and whether she may be eligible to receive funding. Could you please provide information on any upcoming grant programs or initiatives that might assist heritage property owners in preserving and maintaining their historic assets?
