LEGISLATIVE COUNCIL.

PARLIAMENTARY LIBRARY.

REPORT, 1869-70.

Laid upon the Table by Mr. Wilson, and ordered by the Council to be printed,
October 14, 1870.

REPORT.

MAY IT PLEASE YOUR EXCELLENCY.

THE Commissioners appointed by Your Excellency to regulate the affairs of the Parliamentary Library during the Recess have the honor to report that the Books in the Library are in a satisfactory condition,—a large number of them having been strongly and economically bound.

We have kept up a supply of such works as appeared to us advantageous to introduce into the Library; and we are gratified in being able to state that the issuing of Books to Members has not been attended with any serious loss.

We append a List of new Books purchased or received during the Recess.

The accommodations of the Library are very inadequate; and we would respectfully suggest that the large accumulation of Blue Books should be examined, and such as are worthless be disposed of as old paper,—the amount being transferred to the Library Funds. This would not only be an assistance towards obtaining Standard Works, but afford accommodation now required.

On behalf of the Commissioners,

FRED. M. INNES, *President.*

Parliamentary Library, 22nd August, 1870.

Parliamentary Library, 13th August, 1870.

SIR,

IN obedience to the Rules, I have just completed the Annual Inspection of the Books composing the Library, which are disposed of in the following seven apartments:—

- | | |
|----------------------------|-------------------------------|
| 1. Upper Library. | 5. Lower Committee Room. |
| 2. Lower Library. | 6. Lobby to Refreshment Room. |
| 3. Lobby to Upper Library. | 7. Vaults of Custom House. |
| 4. Clerk Assistant's Room. | |

2. The number of Volumes at last inspection was reported to you as 7171. Since then 50 Volumes have been purchased, and 9 Volumes reported as missing have been recovered,—thus raising the number to 7230, independent of the various bound Volumes of Newspapers of the year, and Magazines.

3. Several packages of Patent Specifications have been received and placed with the others in the Seizure Vault of the Custom House—a most inappropriate place for Papers valued by the Patent Office at upwards of £2000, and which have been presented to the Colony.

4. 75 Volumes are at this date in the hands of Members of Parliament, duly entered in the Issue Book, and 18 Volumes have been irregularly taken out during the Recess.

5. The Library has been visited both for purposes of reading and curiosity by large numbers of persons during the Recess,—amongst whom I may mention the Officers of the Russian Corvette *Boyarin*, and some Members of the Australian Parliaments.

6. I annex a List of Books purchased since last Report; a List of Books presented; and a List of those now missing,—showing that 43 Volumes have been mislaid, or irregularly taken out and detained, since January, 1857, or 13½ years.

I have the honor to be,
Sir,

Your most obedient Servant,

HUGH M. HULL, *Librarian to Parliament.*

The Chairman of the Library Commission.

The Books are insured for £2000 in the Liverpool, London and Globe Company, at an annual cost of £6,—their cost price having been about £2500.
