The Honourable

The Chief Secretary.

Sir,

I have the honour to request that the sum of Thirty-five Pounds (£35) may be provided by Governor-in-Council Authority for the Financial Year 1930-31, under the heading of "House of Assembly" "Stationery and Clerical".

I desire to point out that when submitting the estimate of expenditure for the current financial year, I estimated that £35 would be necessary under the above heading. This estimate was based on the previous year's expenditure which amounted to nearly £240.

As provision was made for £35 last year, my estimate and the amount voted has been rather inadequate. It is now necessary for me to ask for the additional £35. The amount asked for is to meet expenditure incurred in connection with telephone charges, which amounts to £145-11-3 for the year.

I have the honour to be,

Sir,

Your obedient servant,

W. J. P. P. P.

Clerk of the House.

G.C.A. for 2500 : Printing - Bills.Notice Papers, &c. &c.

Dear Sir,

In reply to your minute of the 10th instant, requesting information relating to the circumstances which have led to requirements in excess of the amount voted for the above services, I desire to point out that, owing to considerable delay in the Government Printing Department, the printing of the Index to the Journals and Papers and the binding of the same for the Session of 1929, was not completed until well into the present financial year, and the cost was accordingly charged against the vote for 1930; consequently the amount voted to meet the cost of printing the Index for the Session of 1930 was absorbed to the extent of £155-16-6.

Other unforeseen expenditure was incurred through delay in the passage of the Building Bill which was printed during the Session of 1929. At the time it was proposed to add to the Bill, the question arose as to whether it should not be treated as a Semi-Public Bill, and as this question had not been decided right up to the end of the Session, the account for printing (£179-10-0) in connection with the Bill could not be passed for payment that year. During last Session (1930), the Bill in question was ordered by the House to be brought in on the understanding that provision would be made in the Bill, so that its operations should apply to the whole of the State, thereby making it a Public Bill.

I have no doubt that when the Estimates for printing for 1930 were being prepared it was not anticipated that the

years vote.

I would further point out that last Session, several Bills were brought in by private Members, the cost of which further depleted the vote for printing by \$50.

Yours faithfully,

Wm. P. Lawrence

Dear Sir,

I am in receipt of a notice from the Parliament
General's Department, Chief Parcel Office, Hobart, informing me
that a parcel addressed to the Librarian of Parliament, Hob-
art has been received from Canada, and that delivery may be
obtained from the Customs Duty of 19/7.

I am sure that the parcel referred to
consists of books of Parliament of the Province of Saskatchewan,
and is sent to this Library on an exchange basis. Although
they are of some use to the Library, I have no vote upon
whether I can draw to meet this claim and moreover if money
were available, I do not think the expenditure could be just-
ified. I therefore request that the above-mentioned books,
being of no commercial value, might be delivered to the Lib-
rary free from Customs Duty.

The Clerk-Assistant,

Hobart,

Dear Sir,

I have to acknowledge the receipt of your letter of the 1st inst., relating to your salary, in which you state that, when you were appointed in July, 1925, at a salary of £225 per annum, it was an understanding that you should receive annual increments until you reached the salary of your predecessor, viz., £330 per annum. In reply, I would state that, I think there must be some misunderstanding regarding this matter. The Speaker, as you are aware, has the privilege of nominating any person to fill vacancies arising in the personnel of the staff at the House of Assembly, but the salary is fixed by Ministers. Apart from that aspect of the question, I would point out that your predecessor, who was considerably older than you, started with a salary £35 in excess of that which you commenced and in the four years of his service his salary was increased by £25, whereas, the second year of your service you received £25 increase and £30 as Secretary to the Parliamentary Standing Committee on Public Works. I think that, taking into account the aggregate increase received by you, none of your predecessors salaries has reached the same rate as yours has. For the purpose of showing that your interests have not been overlooked in the past, I would point out that, in 1925 your salary was £225, in 1926 your salary was increased by £25, and you were appointed Secretary to the Public Works for a further £30, making a total increase in your salary of £55, for the year ending 1926, bringing the salary up to £280 per annum.

The Commonwealth Statistician

Canberra, F.C.T.

Dear Sir,

I have to acknowledge the receipt of your letter of 15th instant, advising me that a parcel containing forty copies of the Pocket Compendium of Australian Statistics, 1931, was forwarded for distribution to the Members of both Houses of Parliament of this State.

In reply, I desire to state that, the parcel came to hand to-day, and I find by the slip you sent me showing the members of the Ministry who have already received copies, that I am four copies short. This is accounted for through consigning many copies to Ministers, for instance, the Minister for Public Works is also Minister for Lands, the Chief Secretary is also Minister for Railways and Minister for Mines, and the Premier also Treasurer.

For your future guidance, I would point out that the designation of each Minister is as follows :-

Premier and Treasurer

Minister for Lands and Works

Chief Secretary, and

Attorney-General.

Quebec City.

Dear Sir,

By direction of the Honourable the Speaker, I have to acknowledge the receipt of your letter of the 9th instant with a petition signed thereto.

In reply, Mr. Speaker desires me to express his regret at finding that the Petition was not in order, inasmuch as it was not sufficiently decorous and temperate in its language, and it did not contain a prayer.

The Speaker also desires me to state that although the Petition was not received by the House, the course adopted by him, has given greater publicity to it, and that probably will be as effective as though it had been received.

Yours faithfully,

Clark of the House.

12th March 1927

H. Richardson, Esquire

Secretary

Parliamentary Joint Committee on Public Accounts

Canberra.

Dear Sir,

I have to acknowledge the receipt of your letter of the 7th instant, relating to the question of the adoption of the royal octavo size for Parliamentary Papers.

In reply I would point out that a Joint Committee of both Houses was appointed in 1927 to consider and report upon whether any, and if any, what economy could be effected in the expenditure incurred by the Government under existing arrangements for printed matter required in connection with the various Departments of the Public Service of the State, and that the Committee in its report recommended the 8vo with 12 point type for the adoption of this State in the printing of all Bills and Acts of Parliament. This recommendation was never adopted.

I would further point out, the Journals and Papers of this Parliament are of foolscap folio, and correspond with the size of the Journals and Papers of the Commonwealth Parliament and all State Parliaments of the Commonwealth. The uniformity of size of these Journals dates back before the time of responsible government in this State, the same cannot be said of the Bills and Acts. I do not therefore think that any proposal to alter the present size of our Journals and Papers has anything to recommend it.

Yours faithfully,

Member of the House, and
Member of the Parliament.

Dear Sir,

I have to acknowledge the receipt of your letter of the 11th instant, relating to the practice prevailing in our Parliament regarding the rights of Members when speaking, so far as the place occupied by them is concerned.

In reply I desire to state that our Standing Order is the same as yours in regard to this matter, but it is more honoured in the breach than in its observance. During the whole of my association with Parliament, which extends over a period of nearly forty years, it has always been the practice for Members desiring to speak to any question before the House, to address Mr. Speaker from their places or from the end of the Table of the House, whichever they prefer. Of course Ministers and the Leader of the Opposition when addressing Mr. Speaker, always do so from their places.
