

Joint Sessional Committee on Gender and Equality

Inquiry into gendered high rates of suicide ideation and suicide in Tasmania

The Joint Sessional Committee on Gender and Equality resolved to undertake a short inquiry process into the gendered high rates of suicide ideation and suicide in Tasmania, with the following terms of reference:-

- (1) The social, situational, contextual, and age-related factors that result in high rates of suicide ideation and suicide;
- (2) Causes of gender disparity in rates of suicide ideation and suicide;
- (3) Current prevention and intervention strategies;
- (4) Current funding models;
- (5) Barriers to successfully reducing suicide rates;
- (6) Successful strategies from other jurisdictions that could be considered; and
- (7) Any other matters incidental to.
