Dear member,

My questions or concerns about the stadium are several so I have addressed them in point form.

1 Do we need a new stadium or can we upgrade Brunstone arena?

2 If we do build a new complex why not build it on the old TCA as the Glebe already has several sporting facilities.

3 How will the new AFL team be funded when the average player receive in excess of \$100 000 per year. A Tassie membership will not be able to cover this.

4 If a stadium is built and we host event which attract an audience of 10000 people how and where do they stay. We currently barely manage with the event numbers we currently host.

5 Lastly if a new team is granted and we do build what is to say the cost will not blow out to in excess of One Billion Dollars. Can we as a state really afford it.

Regards

Michael Lijnzaad
