

UTAS Stadium Development

Mr FAIRS question to MINISTER for SPORT and EVENTS

I understand that the transformation of the University of Tasmania's UTAS Stadium has taken some steps forward in recent weeks. There is obviously a lot of excitement about the project. However, some locals in my electorate have asked me what exactly is being delivered as part of the project. We know enhancements will elevate UTAS Stadium into a world-class destination for sports and entertainment, benefiting fans, athletes and the entire Launceston community. Minister, can you outline exactly what the project aspects of the development are?
