R E P O R T.

Your Committee, having taken evidence and examined a number of papers connected with the subject which your Committee had been directed to consider, have the honor to report that it is their opinion that the allegations contained in the Petition referred to them have been fully established; and that the boundaries of the Upper Derwent Road District ought, in accordance with the objects of the promoters of the enquiry, to be extended to the Florentine River.

Your Committee consider it but right and just that the settlers on the respective banks of the River Derwent may have the funds raised on them laid out in the opening up and improvement of the Roads on that side of the River on which their respective properties are situated.

J. D. BALFE, *Chairman.*

*Committee Room, 24th September, 1860.*
