

SUBMISSION IN RELATION TO TASRACING INQUIRY

Comments on Terms of Reference

3. *Factors impacting on the ongoing profitability and sustainability of Tasracing:*

I believe the funding \$27,000,000 a year for 20 years from the government is not enough.

Before Mr Aird's new funding model Tote was putting in up to \$35,000,000 a year.

Wasn't the TOTE established to fund racing???

I also understand the government now keeps all the BETFAIR fees.

The \$27,000,000 rises by CPI less 1% a year. How can that cover rising costs over a 20 year period??

4. *Review of the respective roles of the DIER and Tasracing in relation to the admin. of the Tas racing industry:*

I believe Racing Services and Tasracing should be under the one umbrella. Surely this would result in big savings.

Kind regards

Gary Sutton (Chairman North West Greyhound Racing Club)
