

Island Screen Incentive Program

Mr SHELTON question to MINISTER for the ARTS

You recently announced the \$1 million Island Screen Incentive program. I know this focuses on attracting TV and film projects to Tasmania, but in a conversation recently I was asked how far the benefits also spread for those people not involved directly in the arts. Can you please provide information on how far the benefits of this initiative, the incentive scheme, are expected to spread and which other sectors the government expects it to support?
