- (3) Acknowledges that the majority of Australian states and territories have successfully implemented a CRS.
- (4) Further notes that the CRS will encourage positive, incentivised recycling and re-use behaviours, that will help reach our target of becoming the tidiest state by 2023.

- (3) Further notes comments from the Liberal Member for Clark, Hon. Sue Hickey MP on 12 June 2019 that Mr Ferguson "should consider his position."
- (4) Further notes Ms Hickey's comment: "He's lost the faith of the doctors. He's lost the faith of the nurses. There's not a lot of faith in the Parliament. He just stands up every day and says thanks for this report... He can't keep glossing over this. This is a serious issue. And it probably just needs fresh blood."
- (5) Acknowledges correspondence from the Royal Hobart Hospital (RHH) registrars, Ambulance Tasmania paramedics, the AMA and the ANMF all describe unacceptable and dangerous conditions for patients and employees in the health system.

- (11) Further notes that the rate of emergency department adverse events has increased across all four major hospitals by around 60% during the period that he has been Minister for Health, and that adverse events are defined as an event or circumstance that could have, or did lead to, unintended or unexpected harm, loss or damage to any person receiving care or services from health services, and can include avoidable deaths.
- (12) Points out with concern that mental health patients are languishing for more than seven days in the emergency departments and that while they are waiting for a bed they psychologically deteriorate, self-harm and attempt suicide.
- (13) Reminds members that the Minister delayed the Royal Hobart Hospital redevelopment by a year, and has now confirmed a further delay to completion of Stage 1 of the redevelopment.
- (14) Further notes the minister continues to deny women access to legal reproductive health services in the public health system.
- (15) Further notes that this House has voted to establish health roundtables with key stakeholders and all sides of politics to examine solutions to the health crisis, and that the Minister for Health has done nothing to progress those cross-party efforts and has deliberately ignored the will of this House.
- (16) Further reminds members that ministerial responsibility is a fundamental tenet of Westminster democracy that means ministers must take ultimate responsibility for failures in their portfolios.
- (17) Further notes that the minister has demonstrated through his lack of action a complete disregard for the health of Tasmanians and for the wellbeing of his health workforce, and that Tasmanians should not be expected to suffer the consequences of his incompetence any longer. (12 June 2019)
