Dear Committee Secretary

I write to outline my support to the proposed \$750 million stadium at Macquarie Point.

As a taxpayer I support public funding going towards this project so thousands of Tasmanians hopefully get a real job.

The AFL should be making Tasmanians pay for a new roofed stadium to have our own Tasmanian team. Every other state has been made to do this.

Tasmanians have been consulted on the chosen site and I support the decision made by the government.

The government has presented a business case that outlines the merits of this project and explained it clearly.

Another stadium is the right priority for our state.

Kind Regards,

John Saunders | Managing Director
