- ㉘ Parking and Charging Stations

Our Place: a Tasmanian Vision for Macquarie Point

The Macquarie Point Vision is an iconic housing development of 1,000 new homes for 2,000-3,000 people that has as its centrepiece an enhanced, nationally significant Truth and Reconciliation Park.

It speaks to what Hobartians need, which is housing, and what they want, which is reconciliation with the Palawa people. It is about Tasmania's needs and values.

It is about creating an iconic, internationally significant urban renewal project which answers our needs and addresses our problems. It is about hope and pride, truth and the future. It's about our place.

The Macquarie Point Vision is an initiative of Our Place, a group of Tasmanians who wish to see development that benefits Tasmanians, not vested corporate interests. The creative work has been done in partnership with Bence Mulcahy, bencemulcahy.com.au. For further information go to: macquariepointvision.net.au
