

Classroom role-play layout

Arrange your chairs into a horseshoe shape to mirror the actual House of Assembly layout. Government Members sit on the right hand side of the Speaker and the Opposition Members on the left. Crossbench Members sit in between.

A **majority** government will have a majority of the overall class. A **minority** Government will have the most members, but will not have an overall majority. In the classroom it is easiest if students speak from their seats. Place a desk in front of the Speaker’s Chair, the Mace will sit across this, with the head of the Mace pointing to the Government.
