

Clark - Multicultural Communities Portfolio

Ms BURNET question to PREMIER

My question is from various members of the multicultural community in Clark who have consistently raised their concerns and who, frankly, feel listened to only when their votes are needed. After Mr Ferguson gave up his infrastructure portfolio, there was the creation of a Science and Technology portfolio, now held by Ms Ogilvie. Why has the multicultural community not been afforded the same respect and had a specific multicultural communities portfolio created, especially when we are seeing increased attacks on members of multicultural communities and businesses, for example in Moonah and Glenorchy?
