Dear Ms Butler

In Parliament on Wednesday, 11 September, you asked the following constituent question of me in my capacity as Minister for Infrastructure:

***“Francis from Longford would like to know the results of the noise loggers used to measure the decibel readings of traffic conducted by State Roads on Esk Farm and Valleyfield between the dates of 16 May and 29 May 2024, which have been withheld by State Growth.”***

In response, I am advised by the Department of State Growth that it commissioned a noise report on Illawarra Road in May 2024.

Noting that it is a highly technical report, a copy will be sent to affected landowners soon, along with an open offer for them to contact us if they would like a meeting with the noise consultant to discuss the more technical aspects of the report.

The Department advises that there has never been any intention to withhold any information or this report from landowners.

Yours sincerely
