

Housing – Number of Recent Constructions and Approvals

Ms FINLAY question to MINISTER for HOUSING, PLANNING and CONSUMER AFFAIRS

My constituent, Philip, from Newnham has asked: how many new homes - like, real homes, new homes, actual new builds - have been built over the past five financial years, including the current financial year to date? Can you please break this down separately by private sector and public sector construction, and can you provide the same information but for housing approvals?
