119 Mrs Rylah to move—That the House:—

- (1) Recognises the Australian Bureau of Statistics (ABS) data released recently, confirms that, under the Hodgman Liberal Government, Tasmania is the strongest State in the nation for the annual growth of dwelling approvals.
- (2) Notes that the 2018-19 financial year saw 3,121 dwellings approved, which is the strongest growth of any state and 9.5 percent higher than approvals for 2017-18.
- (3) Acknowledges the recently published Housing Industry Association (HIA) Housing Scorecard, which has confirmed that, under the Hodgman Liberal Government, Tasmania has also seen the biggest improvement in the nation in terms of building conditions, and now sits second to Victoria in favourable residential building conditions.
- (4) Further notes the Scorecard and today's building approvals data both demonstrate that this Government's policies are encouraging more Tasmanians to build a home, are working.
- (5) Further notes that Tasmania was also the only jurisdiction to record growth in the value of building jobs for 2018/19, with more than \$1.7 billion approved across the year – over 11 percent higher than 2018.

- (3) Further notes that the development stage of the first phase of the Battery of the Nation carries the commitment of the Federal Government through the Federal Underwriting New Generation Investment program.
- (4) Further notes that support by both the Hodgman Liberal Government and the Federal Government, gives UPC Renewables and AC energy, more confidence to develop their Robbins Island and Jims Plain wind and solar parks.
- (5) Recognises that Tasmania has a world-class wind resource complemented by our pumped hydro that means there will always be some electricity available for export when the mainland is experiencing low wind or high demand.
- (6) Acknowledges that the Australian Government clearly recognises the importance of Tasmania's energy solutions and our status as the leading energy state.
- (7) Commends the Hodgman Liberal Government for its strong commitment to making use of the natural resources available to the State while at the same time ensuring all Tasmanians will have access to low cost, reliable and clean energy in their homes and businesses. (Mrs Rylah)

To which the following amendment has been proposed by Dr Woodruff, by leaving out all words after "That the House:—" and inserting instead:

- “(1) Notes that the Liberals repeatedly talk about the Marinus project and use it as a political wedge, particularly during election periods, despite the fact that they have not put forward a financing proposal or a position on who should finance the multi-billion project.
- (2) Agrees that the project could cost in excess of current total Public Non-Financial Corporations Sector debt, and feasibility studies and prominent economists such as Saul Eslake have raised serious concerns about the viability of the project, which have not been addressed by the State Government.
- (3) Notes that the Liberals passed legislation to set wholesale electricity prices at a rate higher than projected, leading to energy bills decreasing by less than they would otherwise would have.
- (4) Notes with alarm that the Liberal Government continues to allow Entura to engage in profiteering from immoral projects overseas such as the Karuma hydro power project Uganda, which has been linked to killings and other human rights violations.
- (5) Condemns the Liberal Government for their lack of honesty, ethics or plan in their handling of the Energy portfolio.” (Next Speaker: Minister for Energy)
