---

Dear Sir,

I am opposed.

I am not terribly interested in sport. I can't imagine a similar facility being funded for arts or crafts.

The money could be way better spent to improve the physical health of Tasmanians.

It could be far better spent on other government matters to improve the lives of Tasmanians. Such as building affordable housing and the transition to a sustainable way of living.

I confess that I find it hard to understand that this expenditure is even being complicated.

Evan Hadkins
