Dear Sir /Madam.

I am a football support and would dearly love to have an AFL Tassie team here.

BUT I am also a pensioner who has been waiting for a hernia operation for well over three years with little prospects of getting it done in the near future . The way I have survived is to constantly wear a hernia belt which is often uncomfortably but helps ease the pain. AND I am one of many thousands who are on never ending waiting lists for an operation.

Not to mention the many thousands of people who are having problems getting a roof over their head. I have recently had a homeless friend staying here for 6 months as he was left without a rental place when the house he was renting was sold under him with the owner taking advantage of the high housing prices. He was unable to get a rental place as prices of the few available places were so high there was no way he could afford it being on social security benefits. Luckily I own my own house but I feel sorry for those pensioners who have to live in this high rental market. Not to mention the multitudes of homeless people living in the streets, a lot of whom have mental illnesses.

PLEASE think about those that really need money being spent on them now. \$750 million would go a long way in that direction.

A FOOTBALL STADIUM CAN WAIT to when the State has more available funds.

There is no way I would vote for a party that wants to spend money on a Stadium instead of helping Tasmanians who need medical care and a roof over their heads.

Mirosław Chodan
