---

In brief, having read a lot of information re the proposed 'new stadium', I write really briefly to the Committee. I could talk about the costs, the future of the two existing stadiums and the 'politics' of how this proposed development has advanced so quickly through procedure- or non procedure.

However I just ask that the Committee acknowledge -then act upon the fact- that the development is so inappropriately situated- beautiful waterfront land sacrificed. The proposal is totally inappropriate for the area(s) proposed.
