Health System – Commission of Inquiry

Mr GARLAND question to PREMIER

My question is from Dave, from Oldina, for the Premier. Why have you refused to support a Commission of Inquiry into Tasmania's healthcare system despite it having the support of the majority of parliament, yet relied on that very same principle of parliamentary majority support to justify proceeding with the Macquarie Point stadium? Why does the will of parliament count when it comes to building a stadium but not when it comes to fixing our healthcare system?
