29	Rock Hills Large Car Park	Reconstruct pavement and seal pull over area, installation of new guard rail at edge, adjust existing guard rail if required.
30	Rocky Hills Pull Over Area	Reconstruct pavement and seal pull over area.

A total of 67 projects were identified to be considered in the options analysis undertaken for the turn treatments and pull over bays.

Using a Multi-Criteria Assessment (MCA), a priority list of 30 projects was developed for consideration in future design phases.

Each of the potential project sites were assessed for benefits / impacts against three key themes in the MCA: Social, Environmental and Economics.

The results of the MCA are shown in the adjacent table.
