

Submission to members of the Tasmanian Legislative Council from Iain O'Neill,  
10 Charles Street, Scottsdale, 7260, Tasmania and those names below.

The community of Scottsdale respects the project conducted by the Rotary Club of Scottsdale. We believe that with the mountain bike activity at Derby and the bike path from Scottsdale to the Billycock, that this municipality has had enough focus on bikes. We would like to see the North East Railway retained to create jobs for those that want them. We can create a training centre for the railway in multiple trades. We can set up a manufacturing centre for railcars to travel the line. We can preserve our history and rebuild our stations. We can make this an icon for all of Tasmania to be proud of, that everyone can enjoy, not just those who can ride a bike.

Please review the decision to remove a railway that has been assessed by a qualified Railway Engineer as 95% ready to go.

At least 65-70% of Scottsdale residents support the retention of the railway line.

A moratorium needs to be placed on the North East rail corridor, to allow the heritage railway to prove its viability and obvious worth.

Scottsdale needs something special to put it on the map again. This can be it!

Name	Address
Tim Jacobson	106 Richard St Bridport.
TERRY FAULKNER	12 Charles St Scottsdale
VICKI FAULKNER	12 Charles St Scottsdale
Sheryl Martin	80 Oakdene Road Jetsonville 7260
