---

Hi Scott,

You are correct the current B-Double network does not extend to either Pittwater Road or between Pittwater Road and Sorell which means B-doubles should not access either the current Milford access off the Tasman Highway or an existing access off Pittwater Road. In terms of Pittwater road and the Tasman Highway it is capable of a dog & Trailer PBS Class 2, which is the majority of large freight vehicles used.

The use of vehicles above the designated limits can be approved via a NHVR permit system with the use of escort vehicles.

Sven
