

Southern Lyons Urban Growth Infrastructure Investment

Mr SHELTON question to MINISTER for HOUSING, PLANNING and CONSUMER AFFAIRS

When I visit the many councils within Lyons, a question that is always asked is about the expansion of urban growth boundaries. Southern Lyons has seen significant investment in transport and social infrastructure like the Bridgewater bridge, Tasman Highway, and Brighton and Sorell schools. Can the Minister please outline how an expanded urban growth boundary in these areas will leverage these investments and support increased housing supply and affordability for the local communities?
