

## Bus Driver Safety and Cuts to Half Price Fares

### **Ms BROWN question to MINISTER for TRANSPORT**

Constituents of mine who work as bus drivers are concerned they will bear the brunt of your cuts to the number of people who can access half-price fares. As the roll out of the security screens has not been implemented on the majority of buses, what steps are you taking to ensure drivers are safe and the public knows that they are not responsible for the changes of bus fares?
