

Frankford Highway – Roadworks Completion

Ms FINLAY question to MINISTER for INFRASTRUCTURE and TRANSPORT

My constituent question today is from Duncan about the Frankford Highway, and not only has Duncan raised this with me directly, but many people contact my office regularly about the upgrades of the Frankford Highway. Has the \$44 million that was allocated by the federal government remained secure with the delays to this project and on what specific date will the works commence on the Frankford Highway upgrades?
