My opinion on pokie machines is I am a player have been for at least 10 yrs I have my own business. If you want to stop people gambling your going to have to stop them gambling on every thing like keno tats horses etc. Other wise your discriminating against people that play the machines. I also wont be voting for any politician that tries to ban them. In fact a lot of times my wins have actually helped me a lot to stay in business in quiet times of work.
