NOTICES OF MOTION AND ORDERS

- (4) Further notes the Premier did not consult with the TAFE workforce before announcing his plan to turn it into a GBE.
- (5) Further notes the aggressive and divisive approach taken by the Premier will damage morale and undermine student outcomes.
- (6) Recalls the approach is strikingly similar to the Premier's attempted hostile takeover of TasWater, which failed to address water and sewerage changes.

- (6) Understands that degradation and loss of wetlands worldwide from climate change and human development is rapid, and maintaining global migratory flight pathways is critical.
- (7) Further recognises the development proposal for a massive wind farm would substantially cover Robbins Island, with proposed turbines 270m high and a bridge over Robbins Passage.
- (8) Further recognises existing white-bellied sea eagles and wedge-tail eagles would be critically threatened by turbine blades.

- (2) Records this Governments continuing drive for the development of the Battery of the Nation and the crucial second interconnector, the Marinus project, which have the potential to inject up to \$5 billion into the Tasmanian economy and deliver 2,000 jobs, particularly into regional areas.
- (3) Further notes that the development stage of the first phase of the Battery of the Nation carries the commitment of the Federal Government through the Federal Underwriting New Generation Investment program.
- (4) Further notes that support by both the Hodgman Liberal Government and the Federal Government, gives UPC Renewables and AC energy, more confidence to develop their Robbins Island and Jims Plain wind and solar parks.

- (6) Acknowledges that the Australian Government clearly recognises the importance of Tasmania's energy solutions and our status as the leading energy state.
- (7) Commends the Hodgman Liberal Government for its strong commitment to making use of the natural resources available to the State while at the same time ensuring all Tasmanians will have access to low cost, reliable and clean energy in their homes and businesses.

To which the following amendment has been proposed by Dr *Woodruff*, by leaving out all words after "That the House:—" and inserting instead:

- “(1) Notes that the Liberals repeatedly talk about the Marinus project and use it as a political wedge, particularly during election periods, despite the fact that they have not put forward a financing proposal or a position on who should finance the multi-billion project.
- (2) Agrees that the project could cost in excess of current total Public Non-Financial Corporations Sector debt, and feasibility studies and prominent economists such as Saul Eslake have raised serious concerns about the viability of the project, which have not been addressed by the State Government.
- (3) Notes that the Liberals passed legislation to set wholesale electricity prices at a rate higher than projected, leading to energy bills decreasing by less than they would otherwise would have.
- (4) Notes with alarm that the Liberal Government continues to allow Entura to engage in profiteering from immoral projects overseas such as the Karuma hydro power project Uganda, which has been linked to killings and other human rights violations.
- (5) Condemns the Liberal Government for their lack of honesty, ethics or plan in their handling of the Energy portfolio.” (Next Speaker: Minister for Energy)

- (3) Further acknowledges that Tasmania's Affordable Housing Strategy is responding to the current challenges in the housing market by boosting supply across a spectrum of needs.
