

## Royal Hobart Hospital – New Capital Works

### **Mr BEHRAKIS question to MINISTER for HEALTH**

I have been contacted by a constituent in Hobart who understands that additional beds were added to the Royal Hobart Hospital Emergency Department in 2023, but wants to know what other work is being done to rebuild the hospital. Noting your recent announcement regarding funding in the Budget for the Stage 2 of the ED development, can you expand with more details on this and also any other capital works happening at the Royal Hobart Hospital?
