

Bus Service Reliability

Ms BURNET question to MINISTER for INFRASTRUCTURE and TRANSPORT

My question is on behalf of a young woman who I spoke to on the 512 bus to Claremont. Like many public transport users, she told me that the Metro tracking app isn't working and often her buses either aren't on the tracker or don't arrive at all. She would like to know what you will do to make sure the Metro tracking app will be more reliable.
