Committee Secretary  
Legislative Council  
Parliament House  
HOBART TAS 7000

Dear Sir/Madam

We write to you in relation to the consideration of the introduction of the Public Health Amendment (Tobacco Free Generation) Bill 2014.

As a tobacco retailer, we believe this Bill will have a major impact on our turnover, not just this year but also our ability to turnover a profit into the future as tobacco sales currently make up 80% of our sales.

We recently acquired this business in February with the intention to continue operating for the next ten to fifteen years and provide an income for our families and employment for our staff.

The introduction of this Bill will negatively impact on our sales now and into the future and put at risk the success of our business.

Yours sincerely

Ian Robson (Director)

Jeannie Robson (Director)

Grant Rogers (Director)

Heather Rogers (Director)
